

Atari 800XL Monitor Cable [stereo with Y]: connection instructions

- 1) Turn off the computer
- 2) Connect black (DIN) connector to Atari 800XL video/audio port, located in the back of the computer
- 3) Plug red RCA connector to Video IN in the TV Set
- 4) Plug White RCA connectors to Y cable female (black)
- 5) Plug Red and White RCA from Y cable to Red and White port in the TV Set
- 6) Turn TV on
- 7) Turn computer on

Note 1: I do not have a picture of the Atari 1200XL. Connect the DIN (black) plug to the "Monitor Output" port.

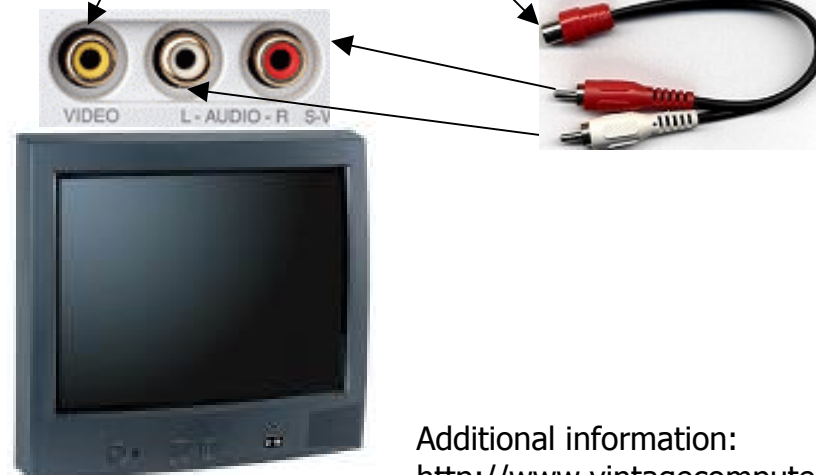

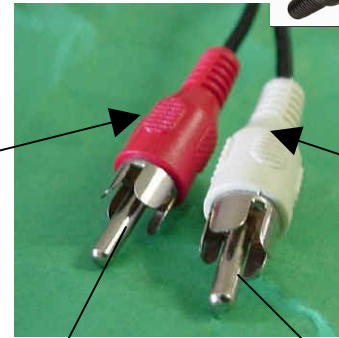

Note 2: The audio signal is still monophonic because the computer does not generate stereophonic sound
