

# Commodore 64/128/VIC-20 Video Cable: connection instructions [stereo with Y]

- 1) Turn off the computer
- 2) Connect black (DIN) connector to Commodore 64/128/VIC-20 video/audio port, located in the back of the computer
- 3) Plug Red RCA connector to Video IN in the TV Set
- 4) Plug White RCA connector to Y cable female (black)
- 5) Plug Red & White RCA from Y to Red & White ports in the TV Set
- 6) Turn TV on
- 7) Turn computer on

Note: The audio signal is still monophonic because the computer does not generate stereophonic sound
