

TI 99/4a Video Cable [STEREO with Y]: connection instructions

- 1) Turn off the computer
- 2) Connect black (DIN) connector to TI 99/4a video/audio port, located in the back of the computer (un-plug the TV modulator and store it. You won't need it anymore)
- 3) Plug Red RCA connector to Video IN in the TV Set
- 4) Plug White RCA connectors to Y cable female (black)
- 5) Plug Red and White RCA from Y cable to Red and White port in the TV Set
- 6) Turn TV on
- 7) Turn computer on
- 8) Enjoy your TI 99/4a

Note: The audio signal is still monophonic because the computer does not generate stereophonic sound
